

Zip Pro Mini 3-Circuit

Three-phase rail spot with integrated powerful LED chip and driver. Dimmable with phase dimmer. Mounted using global multi-adapter, which is ideal for SG's three-phase rail system as well as other systems where Global can be used. Perfect colour rendering due to very high RA value and SDCM 2. ZIP Pro Mini is made of powder-coated aluminium, flexible and able to be pointed in almost all directions, making it the obvious choice for all places where spots or effect lighting is to be used.
