Mounting direction:

**NO:** Drivern må være strømløs når LED panelet kobles til. Ellers kan LED panelet og drivern skades, og garantien vil ikke gjelde.

**DA:** Sørg for, at der ikke er tændt for drivern, før LED-panelet tilsluttes. Ellers kan LED-panelet og drivern blive beskadiget, og garantien bliver ugyldig.

**SV:** Kontrollera att drivern inte är strömsatt innan LED-panelen ansluts. Annars kan LED-panelen och drivern skadas och garantin bli ogiltig.

**EN:** Make sure driver is not powered before LED panel is connected. Otherwise LED panel and driver could be damaged and warranty will be void.

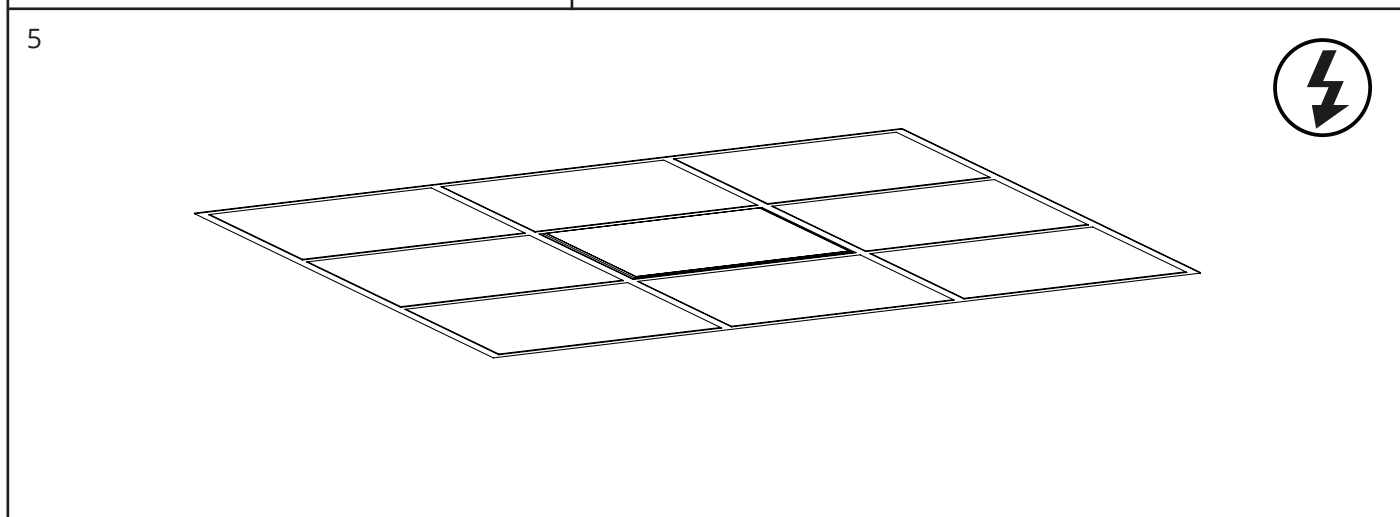

**FR:** Vérifiez que le driver est hors tension avant de connecter le panneau à LED.

Autrement le panneau à LED et le driver pourraient être endommagés et la garantie ne serait plus valable.

**NL:** Zorg dat u het ledpaneel aansluit voordat u de driver inschakelt. Anders kunnen het ledpaneel en de driver beschadigd raken en vervalt de garantie.

**DE:** Darauf achten, dass der Treiber vor dem Anschluss des LED-Panels von der Stromversorgung getrennt ist. Andernfalls können LED-Panel und Treiber beschädigt werden, und die Garantie erlischt.

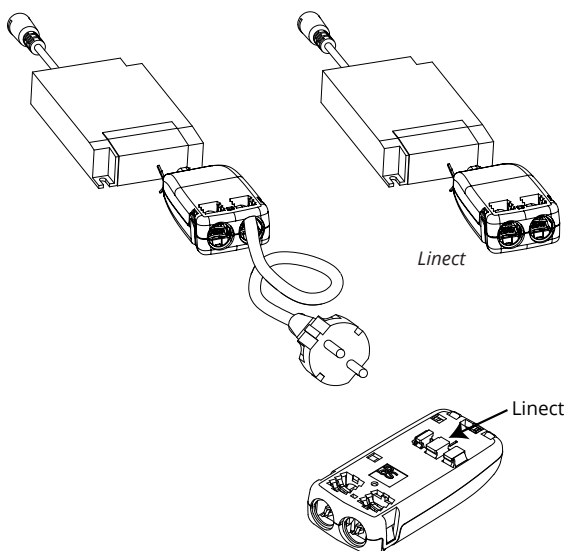

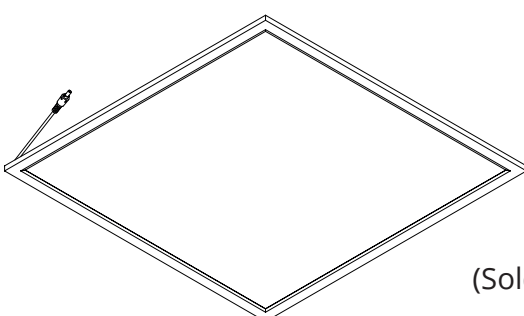

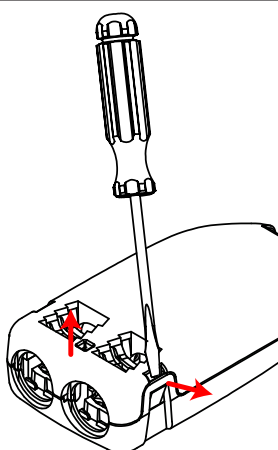

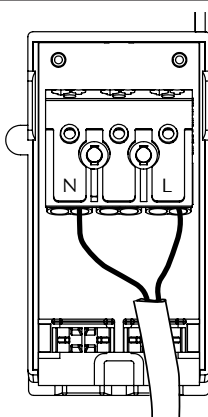

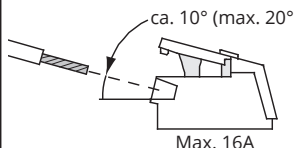

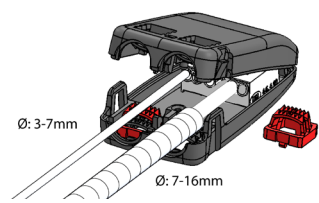

**FI:** Varmista, että ohjaimeen ei ole kytketty virtaa ennen LED-paneelin liittämistä. Jos virta on kytketty, LED-paneeli ja ohjain voivat vaurioitua, ja takuu mitätöityy.

# Sense 4000lm Driver Kit Phase-Cut

900mA CC (Constant current), SELV

|                                                                                                                                                                                                                                                                                              |                                                                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                       |
