

Aneto DALI

Aneto DALI is a stylish and compact spotlight for ShopLine DALI three-phase track systems. When not tilted it has a pure cylindrical shape, but once tilted it reveals a pleasant organic shape. It can even be used with other track systems that fits Global DALI adapters. Powerful LED chip with fantastic colour rendering and large lumen package makes Aneto a great choice for shops and exhibitions. A honeycomb filter is included, which can be attached in front of the reflector for extremely low glare.
