

Tube Pro DALI

Tube Pro is a very powerful spot for the ShopLine track system, especially suited for high ceilings, car shops and other places in need of brilliant bright light. Long lifetime even up to ambient temperatures of 35°C. The recessed light source ensures minimal glare. It also comes with a honeycomb filter that can be attached in front of the reflector for extremely low glare and a «blacklight- effect». Tube Pro has a minimalistic and exclusive look. The spot is fitted with a multiadapter, which in addition to ShopLine also can be used in other track systems that fit Global. Tube Pro comes with a 32° reflector as default, and reflectors of 17° and 50° are available as accessories.
