

Sense Eco Opalprism

The Sense Eco panel is well designed and only 10 mm high. A narrow frame ensures attractive look and high efficiency. Sense can be mounted to visible T-rail ceilings without accessories and to concealed T-rail ceilings, DAMPA clip-in ceilings, Trolldtekt acoustic panels and Gypsum, and surface-mounted using accessories. This makes Sense an all-round quality panel that can be used everywhere. Sense is available with phase-dimming or DALI depending on which driver kit is selected (accessory).

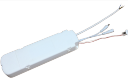

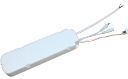

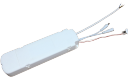

Sense Eco Opalprism
