

Tube Micro R

Tube Micro R is a stylish, minimalist built-in spot for installation in level or sloping ceilings. Its intense light can be used indirectly for general lighting or directly to highlight parts of the surroundings. The spot can be turned and tilted to direct the light to exactly where light is needed. Tube Micro R can be installed easily in holes in the ceiling using springs. The luminaire is ideal for refurbishments, as it fits in holes from Ø68–83 mm. The luminaire also fits SG's Rehabrings (accessory) up to Ø250. The driver and junction box are IsoSafe and can be installed directly into insulation. Can be looped and is Class II, which facilitates easy replacement where there is no earth lead. Tube Micro R comes as standard with a low-glare black bezel. Other bezels are available separately as accessories.

Tube Micro R
