

Arlon is an efficient and modern luminaire made from die-cast, powder-coated aluminium. The light source is recessed and slightly angled, making it well-suited to lighting walkways, corridors and other similar spaces thanks to its low levels of glare. Can be dimmed using trailing edge dimming or DALI dimmer (DALI upon request). Easy installation with back plate for mounting, two cable inputs and a quick connector. Can also be used to provide uplight.

Arlon
