

The Sense panel is well designed and only 10 mm high. A narrow frame ensures attractive look and high efficiency. Sense can be mounted to visible T-rail ceilings without accessories and to concealed T-rail ceilings, DAMPA clip-in ceilings, Troldtekt acoustic panels and Gypsum, and surface-mounted using accessories. This makes Sense an all-round quality panel that can be used everywhere. Available both in Opal and with Mini Prism, which is almost glare-free. Sense is available in several lumen packages, on/of, phase-dimming, 1-10 V and DALI or whichever driver kit is selected (accessory).
