

Sense Air has a thin, slimmed profile which gives an illusory floating effect in the room. The frame comes in matte white powder-coated aluminium. The Prisma diffuser creates a dazzle-free illumination and is a perfect luminaire for offices and conference rooms. The ceiling mount allows for surface-mounted fitting with either hidden or visible cabling. It is also possible to insert the ceiling mount in standard 600 × 600 inner ceilings. The low voltage current in the wires from the ceiling mount allows for an elegant solution without any visible electrical cables. The DIP switch on the driver means that the light level can be adjusted if necessary. Available with optional emergency lighting.
