

Zip Tube Mini 1-Circuit TW

Zip Tube Mini is a stylish and minimalist spotlight adapted for the Zip 230V 1-circuit system, a more powerful version than the Micro in the same family, but which can be combined on the same rail. The basic design has a black baffle, but the inner ring can be unscrewed and replaced with a white or gold version (accessory). This allows for creative individual designs. The black provides less dazzle, the gold gives a warmer light, and the white reflects the most.
