

# Outlet, surface outdoor IP44

IP44 outlet for outdoor and indoor use, in laundry rooms, and similar areas. Available in white and black, single and double outlets with child protection, and flip covers with automatic locking. Cable bushings in soft polymer, the cable bushings are moved and, if needed, replaced by a strain relief (accessory). There are also weak points for cable entry from behind, making it IP44, and weak points for drainage must be opened.
