

# LEDDim Smart Colour Controller

Color controller that allows you to create all the colors of the rainbow by mixing red, green, and blue (RGB) in various ways. It also has a pure white color (W). Can also be used together with Tunable White LED strip. To power the LEDDim Color Controller a 24V driver is required. To control the controller (light), you can use the SG Smart app and/or a remote control and/or impulse switch(es). Can be combined with NeoStrip, Stripline RGBW, or Stripline TW LED strip.
