

Tube Micro Table

Versatile and stylish work lamp in the popular Tube series provides easy access to USB charging (A+C) at your workstation. The head can be easily rotated and tilted, allowing you to direct the light where it's needed most. Tube Micro Table comes with a black ring as standard, designed to reduce glare and create a pleasant atmosphere. Choose from optional rings in white or gold, or an opal decorative ring for a more unique touch. The powerful USB charger delivers up to 3 A (18 W), making it easy to charge your devices. When both ports are in use, the charger automatically distributes power so that the device with the lowest battery level receives the most energy. For those looking for a more permanent solution, the Tube Micro Table can be easily secured to the tabletop with a screw from underneath.
